

phc

Bringing your
business and the
future together.

PHC is a national
management consultancy
offering expert advice
and services to transform
the operational efficiency
of business and
government clients.

PHC harnesses the expertise of its team to inspire new ways of thinking and solve the most complex business problems.

We pride ourselves on working alongside clients to learn, discover and build the most intelligent and impactful solutions for their business. We aim to do this by becoming a true business partner – from vision to delivery.

At PHC, we are driven to bring the best of tomorrow to our clients, today.

WELCOME TO PHC

PHC is a dynamic Management Consultancy offering multi-disciplinary expertise and services across a number of industries and businesses, locally, nationally and internationally. PHC provide tailored solutions to organisations looking to improve their business and create lasting and transformative change.

The PHC team comprises of diverse and experienced consultants who have worked with a range of high profile organisations and government departments. Inspiring innovation and analysing business in the context of the future global marketplace is what drives PHC and our clients' success.

OUR SERVICES

MANAGEMENT CONSULTING

PHC Management Consulting services provide tailored solutions to improve internal business systems and processes.

Since 2005, PHC has provided these services to a diverse range of business and government clients on projects totalling over five billion dollars in value. These services include Management and Planning, Sustainability and Social Impact, Process Improvement and Procurement.

PHC delivers these services by providing expertise that complement and strengthen clients' existing workforce; seamlessly integrating within our clients' team to inspire new ways of thinking and delivering immediate results.

BUSINESS DIGITAL TRANSFORMATION

The fast pace at which digital technology is changing our lives and the way we do business is accelerating. This change is having an enormous impact on traditional business models and the way organisations communicate and sell their products and services.

PHC will deliver optimised, automated operations across your business. Our management and technical team will work with all your business layers to analyse, design, plan and implement a business-driven digital transition tailored to your environment.

INFORMATION & COMMUNICATION TECHNOLOGY (ICT)

PHC leverages the latest technology platforms to map-out and streamline processes, optimising business and government organisations.

PHC's approach is to work collaboratively with clients to understand business and operational requirements and to formulate anticipated business value. After creating the solution and ensuring the value has been delivered, PHC provides support services to facilitate the system's acceptance and shorten the transitioning phase.

INTERNATIONAL BUSINESS ENGAGEMENT

PHC offers Australian and international businesses advice, support and access to key strategic partnerships to capture global market opportunities.

PHC maintains a network of strategic relationships in the private and public sector – with particular focus on Asia – allowing your business to identify and monetise opportunities, creating long-term success in the global economy.

URBAN DESIGN AND PLANNING

PHC provides Urban Design and Planning expertise to aid landowners, government agencies and private developers to build and grow communities through social, economic and environmental improvement.

PHC's Urban Design and Planning team offers a full range of strategic and statutory planning and urban design services from project inception to consultation and delivery.

Our specialist team has over 30 years' experience working with engineers, economists, environmental consultants and demographers to produce strategic plans in Australia and overseas.

SMALL BUSINESS DEVELOPMENT

PHC's combined resources, skills and expertise assist small businesses to achieve exponential growth through a combination of strategic planning, stakeholder management, process improvement and marketing initiatives.

PHC provides hands-on, practical support to small business, fostering collaborative relationships to inspire innovation and deliver meaningful and measurable business results.

TESTIMONIALS

“I engaged the PHC team to undertake a project that required a review of a significant portion of the Housing Authority’s property portfolio, and provide the Authority with a strategic plan for the management of these properties into the future. The PHC team appointed to this project were highly skilled in this area and provided the Authority with a plan that will help us meet our strategic outcomes into the future. The project was well managed and the personnel from PHC were professional, knowledgeable and very approachable.”

**Kevin Toop, Manager Asset Planning,
Housing Authority**

“Working with the PHC team has helped to generate the much needed momentum that our Digital Projects were lacking. The integration of the PHC team within our organisation was seamless and without delay. They are currently managing the development of our New Mobile App and Microsites, on completion they will then take over the management and development of new company wide websites and a Lead management tool. We have been excited to see our Digital Projects enhanced by the expertise provide by the PHC team, I would have no hesitation recommending them to deliver your Digital initiatives.”

**Chris Penn, Online Sales & Marketing Manager,
Automotive Holdings Group Ltd**
